1. Project Number (Assigned by federal unit): _____

2. Project Name: Aerial Photos for Umpqua Basin Watershed Council	3. County: Douglas
4. Project Sponsor: BLM Coos Bay - Glenn Harkleroad	5. Date: 4/22/02
6. Sponsors Phone Number: 541-751-4361	
7. Sponsors E-mail: gharkleroad@or.blm.gov	

8. Project Location BLM – Coos Bay District. Myrtlewood and Umpqua Field Offices

9. Statement of Project Goals and Objectives:

Supply the Umpqua Basin Watershed Council with a complete set of current (2002) aerial photos of the BLM Coos Bay District and adjacent lands. The acquisition of these photos will eliminate the need for the watershed council, or the landowners they are working with, to come to the BLM office in North Bend in order to obtain aerial photos of proposed project areas. Having these photos available in their office will reduce labor costs for the watershed council, or expenditure by a private landowner, associated with traveling to the BLM office to obtain photos. The convenience of having the photos in their office is an additional benefit that is difficult to place a monetary value upon.

10. Project Description:

Purchase one full set of color aerial photos (7,000 photos per set) and provide the set to the Umpqua Basin Watershed Council. The cost of one full hard copy set is \$20,000 or approximately \$2.86 per 9” by 9” color photo. Additionally provide the watershed council with a CD containing one full digital photo set. The cost of one CD is approximately \$100.

11. Coordination of this project with other related project(s) on adjacent lands?

☐ Yes ☒ No

12. How does proposed project meet purposes of the Legislation? [Sec. 203(b)(1)]

- ☐ Improves maintenance of existing infrastructure. [Sec. 2(b)]
- ☒ Implements stewardship objectives that enhance forest ecosystems. [Sec. 2(b)]
- ☐ Restores and improves land health. [Sec. 2(b)]
- ☐ Restores water quality. [Sec. 2(b)]

15. Duration of Project and Estimated Completion Date: [Sec. 203(b)(2)]

Photos should be purchased and delivered to the watershed council by June 2003

16. Target Species Benefited: (if applicable) N/A

17. How will cooperative relationships among people that use federal lands be improved? [Sec. 2(b)(3)]

The potential for cooperative relationships will be improved by providing the watershed council and local landowners more convenient access to aerial photos of the BLM Coos Bay District and adjacent non-federally managed lands. Landowners that may be hesitant to go to a BLM office to review aerial photos may be more willing to go to their local watershed council. This may also help provide a point of contact for local landowners and the watershed council, that may lead to future restoration projects within the Umpqua Basin. These restoration activities may ultimately benefit conditions on federally-managed lands or species that inhabit federally-managed land. These aerial photos would also be used by the watershed council when identifying and proposing watershed restoration projects on, or adjacent to, federally-managed land.

18. How is this project in the best public interest? [Sec. 203(b)(7)] **Identify benefits to communities.**

See the answer to question # 17 above.

19. How does project benefit federal lands/resources?

Local landowners will have a greater opportunity to access information about federally-managed lands (photos) and therefore have improved opportunity educate themselves about its location on the landscape, uses, and existing condition. This could lead to a greater understanding of land management practices and identification of restoration opportunities.
